PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience in **Python, SQL, data analysis, data visualization, AI, and workflow automation**. Experienced in analyzing real-world datasets, developing AI-assisted applications, and converting raw data into **actionable business insights and strategic recommendations**. Strong problem-solving and analytical mindset with a keen interest in **AI-driven products, financial markets, and data-driven decision making**.

TECHNICAL SKILLS

Programming	Python, SQL, C, HTML, CSS, JavaScript
Data & Analytics	Pandas, NumPy, Matplotlib, Seaborn, Excel, Data Cleaning, EDA, Data Visualization
AI & Automation	Artificial Intelligence, AI Assistants, Chatbots, Generative AI, Workflow Automation
Database & Tools	MySQL, Jupyter Notebook, Git, GitHub, VS Code
Core Skills	Problem Solving, Analytical Thinking, Research, Adaptability, Team Collaboration
Languages	Hindi, English

EXPERIENCE

TULIP Intern – Government of India

May 2023 – July 2023

Intern

- Gained practical exposure to **urban governance, smart city initiatives, and technology-driven infrastructure solutions**.
- Worked on understanding real-world problems and **data-driven approaches** in public-sector projects.
- Developed skills in research, collaboration, problem solving, and applying technology to practical requirements.

PROJECTS

Superstore Data Analytics & Business Insights

GitHub

Python | Pandas | NumPy | Matplotlib | Seaborn | Jupyter Notebook

- Analyzed business data to identify **sales, profit, product, customer, and regional performance trends**.
- Cleaned and transformed raw datasets using **Python and Pandas**.
- Performed exploratory data analysis to identify high-performing and underperforming business segments.
- Created visualizations and generated **actionable business insights and strategic recommendations**.

IPL Data Analytics & Business Insights

GitHub

Python | Pandas | NumPy | Matplotlib | Seaborn | Jupyter Notebook

- Analyzed IPL match and player data to identify **performance trends, winning patterns, and key insights**.
- Performed data cleaning, exploratory analysis, and visualization using Python.
- Evaluated **team, player, and match-level performance** using historical data.
- Derived insights and **strategic recommendations** from analytical findings.

Library Management System with AI Assistant

GitHub

Python | MySQL | AI | Chatbot | Web Technologies

- Developed a centralized system for managing **books, users, records, and reports**.
- Integrated an **AI assistant/chatbot** for text-based interaction and information retrieval.
- Automated routine operations to reduce manual effort and improve system efficiency.
- Applied **AI, automation, and problem-solving** concepts to a real-world management problem.

EDUCATION

Vikrant Institute of Technology & Management, Gwalior

2022 – 2026

Bachelor of Technology – Computer Science Engineering

Janta Higher Secondary School, Joura, Morena

2021 – 2022

12th Grade – 64.8%

Government High School, Chachiha, Morena

2019 – 2020

10th Grade – 80.75%

ACHIEVEMENTS & CERTIFICATIONS

Achievements: National Winner – INSPIRE Award MANAK 2018–19, DST, Government of India | 2nd Place – State-Level MP Tourism Quiz 2019 (500+ participants)

Certifications: Deloitte Technology Job Simulation | Deloitte Cyber Job Simulation | C Language – Great Learning
